SAFE Glen Cove Coalition: World No Tobacco Day 2020 A Great Success

The Glen Cove Youth Bureau, Tobacco Action Coalition of Long Island and SAFE, Inc collaborated with students enrolled in the After 3 Program to participate in World No Tobacco Day, a day to raise awareness and support for individuals to stop smoking, and to get the help they need to stay smoke-free. The students chose to create their own prevention messages by either doing a public service announcement, videos, chalk-drawings or flyers to promote a world without tobacco use, highlight the impact that this day has on society and promote awareness and support for individuals struggling with smoking addiction.

The students in grades 3-7 have been learning about the harmful effects of tobacco use throughout the school year by participating in SAFE's evidence-based Life Skills Training Program that incorporates interactive learning, social skills building, specific drug use prevention-related information, providing adolescents and young teens with the confidence and skills necessary to successfully handle challenging situations.

Educating youth on topics such as World No Tobacco Day facilitates positive choices and encourages the establishment of a safe and healthy environment for all.
